Dear Doug

After meeting with you and reviewing the American Innotek products I feel the Brief Relief is the answer for our members to have a environmentally safe and sanitary means to relieve themselves.

Every person has been faced with the situation of having need for a restroom with either the facilities at great distance or else not clean enough to feel comfortable. Your products take care of those problems for both male and female. It also solves the possible exposure problems since it is easily usable within the privacy of a vehicle.

With the intent of convenience not the replacement of personal or "break" time we are glad to endorse and recommend your products for our members.

Sincerely
